2016-17 School Year
New York State Immunization Requirements for School Entrance/Attendance[1]

NOTES:
Children in a prekindergarten setting should be age-appropriately immunized. The number of doses depends on the schedule recommended by the Advisory Committee on Immunization Practices (ACIP). For grades Pre-k through 8, intervals between doses of vaccine should be in accordance with the ACIP-recommended immunization schedule for persons 0 through 18 years of age. (Exception: intervals between doses of polio vaccine need to be reviewed only for grades prekindergarten, kindergarten, 1, 2, 6, 7 and 8.) Doses received before the minimum age or intervals are not valid and do not count toward the number of doses listed below. Intervals between doses of vaccine DO NOT need to be reviewed for grades 9 through 12. See footnotes for specific information for **each** vaccine. Children who are enrolling in grade-less classes should meet the immunization requirements of the grades for which they are age equivalent.

Dose requirements MUST be read with the footnotes of this schedule.

Vaccines	Prekindergarten (Day Care, Head Start, Nursery or Pre-k)	Kindergarten and Grades 1 and 2	Grades 3, 4 and 5	Grades 6, 7 and 8	Grades 9, 10, 11 and 12
Diphtheria and Tetanus toxoid-containing vaccine and Pertussis vaccine (DTaP/DTP/Tdap)[2]	**4 doses**	**5 doses or 4 doses** if the 4th dose was received at 4 years of age or older or **3 doses** if aged 7 years or older and the series was started at 1 year of age or older		**3 doses**	
Tetanus and Diphtheria toxoid-containing vaccine and Pertussis vaccine booster (Tdap)[3]	**Not applicable**			**1 dose**	
Polio vaccine (IPV/OPV)[4]	**3 doses**	**4 doses or 3 doses** if the 3rd dose was received at 4 years of age or older	**3 doses**	**4 doses or 3 doses** if the 3rd dose was received at 4 years of age or older	**3 doses**
Measles, Mumps and Rubella vaccine (MMR)[5]	**1 dose**	**2 doses**			
Hepatitis B vaccine[6]	**3 doses**	**3 doses or 2 doses** of **adult hepatitis B vaccine** (Recombivax) for children who received the doses at least 4 months apart between the ages of 11 through 15 years of age			
Varicella (Chickenpox) vaccine[7]	**1 dose**	**2 doses**	**1 dose**	**2 doses**	**1 dose**
Meningococcal conjugate vaccine (MenACWY)[9]	**Not applicable**			**By Grade 7: 1 dose**	**Grade 12: 2 doses or 1 dose** if the dose was received at 16 years of age or older
Haemophilus influenzae type b conjugate vaccine (Hib)[9]	**1 to 4 doses**	**Not applicable**			
Pneumococcal Conjugate vaccine (PCV)[10]	**1 to 4 doses**	**Not applicable**			

NEW YORK STATE | Department of Health

1. Demonstrated serologic evidence of measles, mumps, rubella, hepatitis B, varicella or polio (for all three serotypes) antibodies is acceptable proof of immunity to these diseases. Diagnosis by a physician, physician assistant or nurse practitioner that a child has had varicella disease is acceptable proof of immunity to varicella.

2. Diphtheria and tetanus toxoids and acellular pertussis (DTaP) vaccine. (Minimum age: 6 weeks)
   a. Children starting the series on time should receive a 5-dose series of DTaP vaccine at ages 2 months, 4 months, 6 months and at 15 through 18 months and at 4 years of age or older. The fourth dose may be received as early as age 12 months, provided at least 6 months have elapsed since the third dose. However, the fourth dose of DTaP need not be repeated if it was administered at least 4 months after the third dose of DTaP. The final dose in the series must be received on or after the fourth birthday.
   b. If the fourth dose of DTaP was administered at age 4 years or older, the fifth (booster) dose of DTaP vaccine is not required.
   c. For children born before 1/1/2005, only immunity to diphtheria is required and doses of DT and Td can meet this requirement.
   d. Children ages 7 through 10 years who are not fully immunized with the childhood DTaP vaccine series should receive Tdap vaccine as the first dose in the catch-up series; if additional doses are needed, use Td vaccine. A Tdap vaccine (or incorrectly administered DTaP vaccine) received at 7 years or age or older will meet the 6th grade Tdap requirement.
   e. For children 7 years of age or older who received the first dose on or after their first birthday, the immunization requirement is 3 doses. If the first dose was received before their first birthday, then 4 doses are required.

3. Tetanus and diphtheria toxoids and acellular pertussis (Tdap) vaccine. (Minimum age: 7 years)
   a. Students 11 years of age or older entering grades 6 through 12 are required to have one dose of Tdap. A dose received at 7 years of age or older will meet this requirement.
   b. Students who are 10 years old in grade 6 and who have not yet received a Tdap vaccine are in compliance until they turn 11 years of age.

4. Poliovirus vaccine (IPV/OPV). (Minimum age: 6 weeks)
   a. Children starting the series on time should receive a series of IPV at ages 2 months, 4 months and at 6 through 18 months, and 4 years of age or older. The final dose in the series must be received on or after the fourth birthday and at least 6 months after the previous dose.
   b. For students who received their fourth dose before age 4 and prior to August 7, 2010, 4 doses separated by at least 4 weeks is sufficient.
   c. If the third dose of polio vaccine was received at age 4 years or older and at least 6 months after the previous dose, the fourth dose of polio vaccine is not required.

5. Measles, mumps, and rubella (MMR) vaccine. (Minimum age: 12 months)
   a. The first dose of MMR vaccine must have been received on or after the first birthday. The second dose must have been received at least 28 days (4 weeks) after the first dose to be considered valid.
   b. Students in grades kindergarten through 12 must have received 2 doses of measles-containing vaccine, 2 doses of mumps-containing vaccine and at least 1 dose of rubella-containing vaccine.
   c. One dose of MMR is required for prekindergarten.

6. Hepatitis B vaccine
   a. Dose 1 may be given at birth or anytime thereafter. Dose 2 must be given at least 4 weeks (28 days) after dose 1. Dose 3 must be at least 8 weeks after dose 2 AND at least 16 weeks after dose 1 AND no earlier than 24 weeks of age.
   b. Two doses of adult hepatitis B vaccine (Recombivax) received at least 4 months apart at age 11 through 15 years will meet the requirement.

7. Varicella (chickenpox) vaccine. (Minimum age: 12 months)
   a. The first dose of varicella vaccine must have been received on or after the first birthday. The second dose must have been received at least 28 days (4 weeks) after the first dose to be considered valid.
   b. For children aged less than 13 years, the recommended minimum interval between doses is 3 months (if the second dose was administered at least 4 weeks after the first dose, it can be accepted as valid); for persons aged 13 years and older, the minimum interval between doses is 4 weeks.

8. Meningococcal conjugate vaccine (MenACWY). (Minimum age: 6 weeks)
   a. One dose of meningococcal conjugate vaccine (Menactra or Menevo) is required for students entering grade 7.
   b. For students in grade 12, if the first dose of meningococcal conjugate vaccine was received at age 16 years or older, the second (booster) dose is not required.

9. Haemophilus influenzae type b (Hib) conjugate vaccine. (Minimum age: 6 weeks)
   a. Children starting the series on time should receive Hib vaccine at 2 months, 4 months, 6 months and at 12 through 15 months. Children older than 15 months must get caught up according to the ACIP catch-up schedule. The final dose must be received on or after 12 months of age.
   b. If 2 doses of vaccine were received before 12 months of age, only 3 doses are required with dose 3 at 12 through 15 months of age and at least 8 weeks after dose 2.
   c. If dose 1 was received at ages 12 through 14 months of age, only 2 doses are required with dose 2 at least 8 weeks after dose 1.
   d. If dose 1 was received at 15 months of age or older, only 1 dose is required.
   e. Hib vaccine is not required for children 5 years of age or older.

10. Pneumococcal conjugate vaccine (PCV). (Minimum age: 6 weeks)
   a. Children starting the series on time should receive PCV vaccine at 2 months, 4 months, 6 months and at 12 through 15 months. Children older than 15 months must get caught up according to the ACIP catch-up schedule. The final dose must be received on or after 12 months of age.
   b. Unvaccinated children 7 through 11 months of age are required to receive 2 doses, at least 4 weeks apart, followed by a third dose at age 12 through 15 months.
   c. Unvaccinated children 12 through 23 months of age are required to receive 2 doses of vaccine at least 8 weeks apart.
   d. If one dose of vaccine was received at 24 months of age or older, no further doses are required.
   e. For further information, refer to the PCV chart available in the School Survey Instruction Booklet at: www.health.ny.gov/prevention/immunization/schools

Dental Health Certificates are requested at the same time a Health Certificate is required. This request pertains to students' first entering school (kindergarten and new enrollees) and grades 2, 4, 7, and 10. A Dental Health Certificate form will be provided with the Health Certificate form for those grade levels.

A student's health examination is required to include BMI and determination of weight status. However, if a parent requests that this information not be included as part of the aggregated summary report submitted to the State Health Department, then the student's information will be excluded upon signed request from the parent. Please ask for a *Parental Notice for BMI and Weight Status Reporting* form only if you request your student's information not be included.

What do you hope your child will learn this year? _____

_____

Is there any additional information that you would like to share with us? _____

_____

Thank you very much for taking the time to fill out this information.

The Thousand Islands Teachers

Dental Health Certificate- Optional

Parent/Guardian: New York State law (Chapter 281) permits schools to request a dental examination in the following grades: school entry, K, 2, 4, 7, & 10. Your child may have a dental check-up during this school year to assess his/her fitness to attend school. Please complete Section 1 and take the form to your dentist for an assessment. If your child had a dental check-up before he/she started the school, ask your dentist to fill out Section 2. Return the completed form to the school's medical director or school nurse as soon as possible.

Section 1. To be completed by Parent or Guardian (Please Print)

Child's Name: Last First Middle

Birth Date: Month Day Year

Sex: Male Female

Will this be your child's first visit to a dentist? Yes No

School: THOUSAND ISLANDS CENTRAL SCHOOL DISTRICT

Grade

Have you noticed any problem in the mouth that interferes with your child's ability to chew, speak or focus on school activities? Yes No

I understand that by signing this form I am consenting for the child named above to receive a basic oral health assessment. I understand this assessment is only a limited means of evaluation to assess the student's dental health, and I would need to secure the services of a dentist in order for my child to receive a complete dental examination with x-rays if necessary to maintain good oral health.

I also understand that receiving this preliminary oral health assessment does not establish any new, ongoing or continuing doctor-patient relationship. Further, I will not hold the dentist or those performing this assessment responsible for the consequences or results should I choose NOT to follow the recommendations listed below.

Parent's Signature Date

Section 2. To be completed by the Dentist

I. The Dental Health condition of_____on_____(date of exam) The date of the exam needs to be within 12 months of the start of the school year in which it is requested. Check one:

Yes, The student listed above is in fit condition of dental health to permit his/her attendance at the public schools.

☐ No, The student listed above is not in fit condition of dental health to permit his/her attendance at the public schools.

NOTE: Not in fit condition of dental health means that a condition exists that interferes with a student's ability to chew, speak or focus on school activities including pain, swelling or infection related to clinical evidence of open cavities. The designation of not in fit condition of dental health to permit attendance at the public school does not preclude the student from attending school.

Dentist's name and address (please print or stamp) Dentist's Signature

Optional Sections - If you agree to release this information to your child's school, please initial here.

II. Oral Health Status (check all that apply).

Yes No **Caries Experience/Restoration History –** Has the child ever had a cavity (treated or untreated)? [A filling (temporary/permanent) OR a tooth that is missing because it was extracted as a result of caries OR an open cavity].

Yes No **Untreated Caries –** Does this child have an open cavity? [At least ½ mm of tooth structure loss at the enamel surface. Brown to dark-brown coloration of the walls of the lesion. These criteria apply to pits and fissure cavitated lesions as well as those on smooth tooth surfaces. If retained root, assume that the whole tooth was destroyed by caries. Broken or chipped teeth, plus teeth with temporary fillings, are considered sound unless a cavitated lesion is also present].

Yes No **Dental Sealants Present**

Other problems (Specify):_____

III. Treatment Needs (check all that apply)

No obvious problem. Routine dental care is recommended. Visit your dentist regularly.

May need dental care. Please schedule an appointment with your dentist as soon as possible for an evaluation.

Immediate dental care is required. Please schedule an appointment immediately with your dentist to avoid problems.

PARENTAL RIGHTS REGARDING THE REFERRAL AND EVALUATION OF CHILDREN FOR THE PURPOSES OF SPECIAL EDUCATION SERVICES OR PROGRAMS

Upon a child's enrollment or attendance at a public school in New York State, the child's parent, guardian, or person in parental relation to that child has the right to refer the child to the school district's Committee on Special Education to have the child evaluated and a determination made whether the student is a student with a disability and therefore eligible for special education and/or related services.

For additional information regarding this process, please visit the State Education Department's website and review "A Parent's Guide to Special Education," at http://www.p12.nysecl.gov/specialed/publications/policy/parentsguide.pdf.

You may also contact the District's Committee on Special Education ("CSE") Chairperson,

Robin Colello-Poplaski (315) 654-2142 Ext. 2201

Name Phone Number

Thank you.
